

Labrador Retriever Club of QLD. Inc.

First of all, my thanks to you all for bringing your lovely dogs for me to judge. In the bigger classes I was splitting hairs for the placings. Just my humble opinion, but I felt that some of the dogs would benefit from being shown standing off the handler on a loose lead. This gives a more natural stance and balance to the outline. I also felt that some of the dogs were moved at too fast a pace to show optimum movement. However, I do realise that other countries do show and handle in a different way to us in the UK!
