

8th Labrador Retriever National 2014

I would like to thank the Labrador Retriever Club of Queensland for inviting me to Australia to judge your National. To say that I had a fantastic time would be an understatement and I would like to express my appreciation to the Committee of the Club for putting on a great show. I would also like to thank all the exhibitors for their entries and the sportsmanlike way that my decisions were accepted. Finally, thank you to Norma Zimmerly for running my ring and to Pat Cameron and Bev Hughes for keeping me very well entertained.

I thought the quality of the dogs overall very pleasing. Some classes were a little difficult and compromises had to be made. I was pleased to see very few with short legs, or overly deep chests. Forehand construction, including upper arm length and angulation, impressed in so many, and movement, especially on side profile, was very good.

DOGS

Baby Puppy

1st Spagnolo's – Driftway Time To Shine

Black of 15 weeks, so composed and showed well for his age. His head and expression is correct for his age, good reach of neck leading into a level topline. Shoulder well laid, short coupled body developing nicely. Just tends to stand with his hind legs a little too outstretched. Has good bone and feet and moves freely for one so young which helped to win the class. Best Baby Puppy

2nd Fisher's -Mikelli Secret Agent

Another at 15 weeks, and one that carries a decent coat. Stands on good bone and moved well. Good layback of shoulder although perhaps a little steep in upper arm. Good depth of body to leg ratio, liked his good topline and tailset. Quarters well developed with stifles well turned, carrying just the right amount of weight.

3rd Brock's - Cambewarra Spending Up

Well grown yellow of 16 weeks, good length to his neck leading into a good layback of shoulder, Short through the couplings, good depth to body. Hind quarters still to develop, stands on good bone and moved ok.

Minor Puppy

1st Spagnolo's – Driftway Valentino

Yellow of 8 months, I liked his length of leg to body ratio. Correct depth to chest with a good forechest, quarters already well developed. Masculine head and expression just right for age, set off with dark pigment and an eye of good shape and colour. Carries a decent coat and moved soundly.

2nd Sheppard & Spagnolo's – Driftway Full Frontal

Well grown yellow, more strongly built than the winner. He has a kind head and expression, perhaps just a tad heavy in ear, and a good length of muzzle. Already has well sprung ribs and is short and strong across the loin. Good quarters used well on the move.

Puppy

1st Ritchard's – Embellish Story Teller

11 month black, in good coat and condition presenting a good overall picture. Very easy free mover, side profile showing excellent forward reach, enabled because of the correct layback of shoulder and length of upper arm. Body is of the correct depth and is short through the couplings. Kind head and expression and carrying a decent coat.

2nd Hann & Spouncer's - Blackboy Skating On Ice

Different type to the winner, a little more raw at this stage. Kind headed youngster with a super length of neck and layback to the shoulder. Would prefer a better angulated upper arm. Topline was level and kept well on the move. Stifles well turned and stands on good bone. Moved OK although tends to be a little proud of his tail on the move.

Junior

1st O'Connor's – Aralyen The French Connection

Strongly made yellow of good overall type. Carries a super topline with a well set on tail. Good depth to body, plenty of heartroom. Strong across the loin and well muscled quarters with developed second thigh. Quality bone and feet .

2nd O'Donnell's - Cladaghring Double O Seven

Yellow built in a lighter frame, has a good length of neck leading into a well laid shoulder although would prefer a better angulated upper arm. Well bodied, good topline and short and strong over the loin. Pleasing head with excellent pigment, ears a little heavy. Moved well on lovely legs and feet and short hocks

3rd Cardone's – Catraz The Bushranger

Very scopy black, displaying a good length of leg to body ratio. Great reach of neck and well angulated forequarters, although fore-chest still needing to develop. Strong topline and well set tail. Carrying a very good coat with otter tail. A little long though the second thigh, good bone and feet, moving soundly.

Intermediate

1st Catraz Kennel's - Aust.Ch. Blackrange Sorcerer's Apprentice

2 year old black in sparkling form, loved everything about him. So typical of the breed with a superb clean balanced outline. Liked his head which just needs to broaden with age, but shows a gentle kind masculine expression. Super reach of neck which flows into a well laid back shoulder and correct length and return of upper arm. Body well developed with the correct length of leg, and not carrying any excess weight. Great topline and strong over the loins, well set on tail, clothed all round to show an otter tail. Excellent well muscled quarters with defined second thigh. Stands on strong well rounded bone with the best of feet. Good hocks which he used well to drive round the ring. His fit condition showed in his outstanding movement, just a joy to watch. A dog with bags of presence that will only get better with maturity. I wish we could have more dogs like this in the UK. Very pleased to award him the CC and later on BIS.

2nd Blackboy Kennel's - Aust.Ch. Cornerstone Hotter By T Mile (imp NZ)

Well presented good yellow, no disgrace standing second to the winner. He has a very kind head which displays a good expression with eyes of the correct shape and colour. His muzzle is of good length and has good pigment. Good body properties with well sprung ribs and good quarters. Still needing to 'drop' into his loins. Shows excellent side profile movement.

3rd Tankard's - Aust.Ch. Cornerstone Many Miles To Blackboy (Imp NZ)

Litter brother to 2nd placed dog, and similar remarks apply. Strongly made all through, deep through the brisket and strong across the quarters. Adequate reach of neck and good layback of shoulder, and good length to upper arm. Well developed fore-chest and in decent coat. Well rounded bone and good feet.

Super topline with well set tail, deep through the body and has a good length of leg. Good layback to shoulder but would prefer better upper arm angulation although it is of good length. In decent coat and moved with drive and freedom which clinched the class for him.

2nd Pryor's – Lytmfyr Potent Magic

Medium sized dark chocolate of a good overall type. Well made throughout with good ribbing and short strong loins. Pleasing masculine head and expression although would prefer a darker eye, shows the correct length of muzzle. Well set neck, and correct layback of shoulder. Stands on good bone and feet.

Veteran

1st Spagnolo's – Sup.Ch. Driftway Special Envoy

9 year yellow in really super coat and condition. Stood alone in this class but could have won in any entry. He really is something else! Great outline, so balanced and shouts breed type. Just loved his masculine head, shows such a gentleness and melting expression. Really strong neck and super shoulders with a correct length and angled upper arm. Good forechest and depth to chest. Quarters well developed and has retained a super topline with a well set on tail. Standing on rounded bone, good feet and neat hocks. Steady mover who could certainly show some of the younger ones how it should be done. Thought him fantastic and had the outstanding Intermediate dog not been present, he would have gone all the way. So pleased to give him the res CC and res BIS.
