Thank you for the invitation to judge your show I enjoyed my day. I found a lot of the dogs didn't, have much body and were too narrow throughout. They also lacked the correct eye shape and placement hence losing sweet expression the Sheltie is known for. I was looking for a Sheltie that covers this ground with maximum coverage with minimum effort. I feel my two winners had this. I can forgive a less than perfect head if I can get the correct movement. It was a shame there is not a lot of Tri's or blues being shown.

It's good to see the numbers are strong in Perth as our numbers have dropped in Sydney.
