1st Place: **Arajento Ima Believer** (Tonkin)

Plainly marked sable & white of very good type. Very alert with good head planes & dark eye. I would prefer a bit more fill in muzzle. Very good length of neck & firm topline. Down to size & compact in body. Balanced side gait but front action a little loose.

2nd Place: **Hedecron Ice To Go** (Welyky)

Blue merle dog of excellent blue colour & quite well broken up merling. A rangier type of dog. Head proportions good but would prefer a more defined stop. Quite upright in shoulder which showed in shorter reach in his front action. Good coat & texture.

Junior Dog: 5 Entries

1st Place: **Ambermoon Follow The Sun** (Luxford)

A very balanced shaded sable & white dog that is down to size. Very good use of his high set ears, head planes parallel, eye dark & very good expression. Good outline & well bodied. Coat texture very good. Moved well.

2nd Place: **Sunland Secret Liason** (Van Dinter)

Sable & white dog with very good balance. Masculine dog, with correct round bone, well angulated quarters & good body. Did not project as well as the dog ahead of him & head properties not as clean. Another with very good coat texture. Very sound on the move.

3rd Place: **Kismet Rain Shadow** (Howe)

A very striking rich sable & white dog, very good in outline. Pleasing head properties, good expression & used his ears well. Well angulated front & rear & well bodied. Yet another dog with very good coat texture. Very good in side gait but let himself down on his out & back.

1st Place: **Lurikeen Im So Not Nort** (Leverington & Post)

A rich red sable & white dog with very glamorous markings. Very good head proportions, parallel planes, well filled muzzle, dark eye & neat ears that he used very well. Down to size & quite compact in body, he had correct round bone. Moderately angled, moving a little wide behind & could have been tighter in his front action.

2nd Place: **Arajento Spellbinder** (Tonkin)

Plainly marked tricolour with quite a striking outline. Very alert with good expression although his ears are tipped a little more than I prefer. Right down to size with round bone & well bodied. I would prefer a little more length in leg to balance the dog with his length. Not as balanced in angulation as the winner but he covered the ground quite well.

3rd Place: **Elenbah The Shiralee** (Leverington)

Gold sable & white dog with good head properties. Expression spoilt by tear staining below his right eye. Ear set good. Balanced angulation & well bodied. Very harsh coat texture.
